FORUM

Topic: Australia's Energy Grid Vandals!

Speaker: Joanne Nova

A Science presenter, writer, speaker & former TV host; Author of The Skeptics Handbook

Everyone welcome to attend this open and free public forum.

Joanne Nova will be well known to many of our CNI members having previously been a keynote speaker on two previous forums on the energy issues facing the nation. The first forum was in October 2009 titled "Exposing the Carbon Fraud" and the second forum was "Three Easy Ways To Destroy A Perfectly Good Energy Grid" held six years ago in November 2017.

Australian Governments of all political persuasions have relentlessly led the nation down a pathway of expensive and unreliable energy sources with the cost now in the stratosphere of trillions of dollars.

With this forum Joanne Nova will present an update on where the nation's energy debacle is heading.

Joanne explains all the technical aspects of Australia's hidden costs of an electricity network, including the meaning and significance of terms like, frequency tolerance, peak load, base load and battery back-up in minutes and hours to accommodate unreliable renewable (windmills and solar panels) sources.

Learn about Australia's standing in the world of coal supply, coal fired power generation, uranium supply, nuclear power generation, hydro power generation, gas generation, subsidised and unreliable renewable power generation with a multi-trillion dollar price tag!

**Free Entry, Everyone Welcome
Presentation Speech followed by Q&A Session**

When: Sunday 26 November 2023

Time: 2.30pm start to 4.30pm finish

Where: APIWA Clubroom, Rear No. 10 Mallard Way, Cannington, 6107

Refer to direction diagram on the reverse of this invitation (Not RPYC)

Doors open at 1.30 pm for coffee and socialising with bar open at 4.30pm for drinks and post presentation discussion and socialising to close at 6.00pm

Encourage friends and associates to attend this informative, educational, free and open forum.
